hardware solutions for aerospace

Prime Technology Corp is the world's leading bolt distributor with more than 20,000 line items and million aircraft parts. We meet the needs of the aerospace/military industry including all major MRO's, OEM's, sub-contractors, commercial airlines, US government institutions and distributors worldwide. We are your complete source for NAS, AS, MS, AN, bolts, nuts, fittings and many more....

Prime Technology Corp a full-service provider of hardware and related services to the aircraft and commercial industries, we've built our business on offering a level of service that leads the field in reliability and personal attentiveness. By knowing you, your industry, and your specific needs, We aspire to provide a level of personal service, expertise, and professionalism that sets the standard for our industry. So we strive to get to know all of our customers, Your businesses, Your specific needs, Your preferred way of working. And because we're a mid-sized, privately-owned business, we'll work to build a relationship with you that allows us to surpass your expectations on every level.

Our goal is to be more than just a hardware provider. We want to be a trusted partner in the success of your business.

PTC is your hardware solution specialist for all your military and aerospace NEEDS. Contact one of our knowledgeable sale staff via e-mail or fax
