

# International Purchasing Organization

## BENEFITS OF AN IPO

- Reduces purchasing costs
- Reduces number of orders
- Reduces number of shipments
- Reduces wire transfer expenses

## PRIME TECHNOLOGY

Prime Technology Corp., founded in 1995, provides outsourced procurement services to the Aerospace, Industrial, Military and Commercial markets.

Our product groups range from Aerospace Hardware, Electronics Components, Land Systems Components, and Petroleum Products. We support industrial & commercial customers in factory automation parts & components, pneumatics, semiconductors (both active & passive components), adhesive & chemicals, raw materials such as stainless steel, copper and aluminum.

Our expertise, in general, has been exporting "Made in USA" products.

Prime Technology Corp. can be your IPO (International Procurement Office) and serve as your "Offshore Buying" office. Customers outsource procurement activities in USA to us as a solution for obtaining goods & services, and export needs. Prime Technology Corp. helps customer to reduce costs, to expedite purchasing and shipping, to improve control over material and supplier management. All these help to improved customer productivity through maximum efficiency.

Let Prime Technology Corp. be your Procurement office in USA. Procurement in the U.S. is our business.
